HL 400-I

The Pocket Pro Industry App, Pocket Pro HL400- I gives users access to timing, measurement and analysis features dedicated to industries and production lines to maximise production control and performance analysis .
The innovative and bespoke application makes it possible to record and monitor processes, using industry standards of digital decimal calculations to an accuracy of 1/10,000th of a minute.

All times are memorised and can be recalled and visualised for each competitor.

The Pocket Pro electronic stopwatch is the latest in TAG Heuer's Professional Timing development regime. In addition to the three exclusive timing modes dedicated to Athletics, this 1/100th second handheld timepiece also encompasses standard stopwatch modes, including Split / Lap time measurement, countdown, and memorising of the time of the day. Together with its integrated USB connector; free POCKET MANAGER application and Pocket-Pro 800 measurements internal memory, the device makes the downloading,

analysis, printing and archiving of results extremely simple.

- **Timing Mode**

- Time Of Day (Time)
- Count Down
- Split / LAP
- Multiple Process Measurement
- Treble Acoustic Count Down Timer / Pacer
- Process Calculator

Technical specification

- Power   5 VCD
- Internal battery   600mAh / 3.7V
- Autonomy   35 days (in function)
- Shell   Aluminium – PVD surface treatment
- Weight   160 g
- Precision   +/- 2 sec / month
- Calibration available
- Display   LCD 3 lines of 6 characters
- Battery level / Timing Mode
- Size of characters   7mm height
- Accuracy   1/100 seconds
- Memory   800 stored times
- Temperature range   –20°C to +60°C
